Gary. Here is the FJ Doyle viewer link

https://gis.eparm.net/r6/FJ_Doyle/

Henryetta I will send that next today once that is up.

We do not have the scribe data loaded yet. We have been working on some issues with the database server over the week. We are getting close to a resolution (tomorrow sometime) and as soon as we do we will load the point layers with the sample locations and link to the analytical by sample in addition to the analytical search tool for you to run screening criterias as you need to.

Subject: Flexviewers

Janine:

What is the status of the flexviewers for Henryetta and Frank J. Doyle Sites. I was thinking they were to be up by last Friday. Please give me the status as I need to get moving along on these ASAP.

Thanks
